

# Multi-Di@g® Master Pro

## **The first multi-manufacturers diagnostics solution** *An ACTIA® exclusivity*

As a key player in European automotive diagnostics and a partner to major car manufacturers for over 20 years, ACTIA® is now meeting a new challenge: bringing the official repair methods used by the manufacturers to ALL dealer networks. This multi-manufacturers diagnostics system opens up a whole new perspective to automotive servicing and repair professionals because it allows you to work in-depth on ALL models of a given make, even the most recent ones.

## **The first multi-diagnostics platform** *An ACTIA® innovation*

Today, the service and repair business does not only involve working on different makes of vehicles, it also means choosing between a whole range of diagnostics levels. For instance, you may have to test a car, configure or repair it. With Multi-Di@g® Master Pro, ACTIA® brings you a multi-diagnostics platform with built in service levels. For you, it's a guarantee of improving, maximising workshop profitability and satisfying your customers!

## Multi-Diag® Master Pro: the multi-diagnostics solution

### TESTING

**To run first level multi-make diagnostics (frame capture), you choose the service functions:**

- ECU identification
- Default value capture and display
- Default value delete
- Parameter capture and display
- Triggering actuators

*All these functions are (or will be) available for the major ECU families\* (injection, ABS, airbag, aircon, comfort) for the major makes\*: Alfa Romeo, Audi, BMW, Citroën, Fiat, Ford, Innocenti, Lancia, Mercedes, Opel, Peugeot, Renault, Seat, Skoda, Volkswagen.*

### CONFIGURING

**To run more specialised multi-make diagnostics, you can choose from advanced service functions:**

- Service controller RESET
- Airbag activate/disable
- Custom equipment (radio, CD changer and tow hitch)
- Electronic brake testing
- Valve and tyre size configuration
- Documentation, remote assistance

*All these functions are (or will be) available for major vehicle makes\* (Alfa Romeo, Audi, BMW, Citroën, Fiat, Ford, Innocenti, Lancia, Mercedes, Opel, Peugeot, Renault, Seat, Skoda, Volkswagen) equipped with the relevant systems.*

### REPAIRING

**For expert diagnostics, ACTIA® brings you (option) the official repair methods used by the manufacturers\*\***

- Failure location and identification
- ECU reprogramming
- Repair methods
- Makers' schematics

\* The functions and perimeter of our Multi-Diag® system are constantly evolving and diversifying. Please ask for an update from your ACTIA® group sales contact person.  
\*\* ACTIA constantly strives to develop the perimeter of its multi-make solution. Please ask your ACTIA® group sales contact person for an update on available manufacturer's repair methods.

## Multi-Di@g® Master Pro: the best of technology

Because fast and reliable diagnostics improves your workshop productivity, Multi-Di@g® Master Pro combines performance and ergonomics:

- Lightning fast communications with vehicle
- Ergonomic diagnostic PC console combining the advantages of a robust tool and a graphics tablet with a touch-sensitive screen
- The simplicity of a single compact communications interface for ordinary and advanced service functions
- A diagnostics platform hosting official repair methods from manufacturers has been opened. It is accessed via a specific communications interface and proprietary software.

## Your Multi-Diag® Master Pro solution:

**A single multi-diagnostics platform for all proposed functions**

Diagnostic PC Tablet

+

A single vehicle communications interface for ordinary and advanced service

+

Specific communications interface for each repair method from manufacturers

## With Multi-Di@g® Master Pro, take advantage of ACTIA's® continuous innovation program

At the forefront of innovation, ACTIA® keeps working on tomorrow's diagnostic solutions. Accordingly, Multi-Di@g® Master Pro is will benefit from future developments such as:

- Integration of new diagnostic methods and car maker repair modules\*\*
- On-line technical documentation
- Tele-Services developments via the Internet, such as upgrades or remote control, etc.
- Wireless communication

\*\* According to specific agreements with car makers

## **Multi-Di@g® Master Pro: The ACTIA® proximity service**

Flexibility, proximity, attentiveness to customer requirements... ACTIA's® experience is the experience of the car repair profession, the hands-on experience of your profession every single day.
